RE: SOR Closure Report Approval for the Facility Located at:

Checkers Country Store & Deli  
9577 N. 177 E. Avenue  
Owasso, OK, 74055

Dear Mr. Gotwals:

The Oklahoma Corporation Commission (OCC) has approved the SOR Closure Report for the above referenced case submitted under purchase order number WP110117 by your consultant on 9/16/2019. The report indicates that all closure requirements for this case have been completed and this case is now **closed and no further action is required**. If in the future levels of chemicals of concern are discovered to exceed those determined appropriate for this site, then this case may be reactivated. A copy of this letter is being sent to your environmental consultant who will know how to respond.

Once the final claim for this case is submitted electronically through the Corrective Action Portal, a "Final Claim Confirmation" letter will be auto-generated. This confirmation will be submitted along with the final claim to certify that the case has been completed and no further claims will be submitted for reimbursement to the Indemnity Fund. In the event a hard copy claim needs to be submitted, a "Final Claim Confirmation" letter will be included with this closure letter. This is to be completed and submitted to the Indemnity Fund along with the final claim for this case. Once this letter has been received by the Petroleum Storage Tank Division, the Accounting Department will review the case and invoice you for the appropriate co-pay. Please note, no other claims can be submitted for payment after this letter has been received on this case.

If you have any questions, please discuss them with your consultant or call me at (405) 522-1437 between 8:00 a.m. and 4:30 p.m. Monday through Friday. Please reference the appropriate OCC Facility Number and Case Number on all correspondence.

Sincerely:

David Poulson
